PROFILE	<p>I am a passionate junior software developer with a solid foundation in software engineering principles and a keen interest in developing innovative Software as a Service (SaaS) solutions. I thrive in collaborative environments and am eager to contribute to Agile development processes, including code reviews and continuous integration. With a proactive approach to problem-solving and a commitment to delivering results, I am excited to grow my skills and make a meaningful impact in a dynamic software development team.</p>	
EMPLOYMENT HISTORY		
Nov 2022 — Present	Technical and System Administration Assistant, Broncor Liquor Market	
	<p>As a junior software developer, I focused on troubleshooting and maintaining server operations while managing hardware systems and collaborating with technical teams to resolve issues and enhance business processes.</p> <ul style="list-style-type: none">• Troubleshoot and maintained the primary server for operational continuity.• Managed hardware systems to support critical business functions.• Worked with technical teams to effectively solve operational challenges.• Implemented new technologies and software applications to streamline business operations.	
Aug 2025	Freelancer, Freelancer.com	Pretoria
	<p>Thrilled to announce I've taken a bold step in my Software Development journey by embracing freelance commissions! I'm now collaborating with real-world clients to design and deliver innovative software solutions tailored to their needs. It's both exhilarating and challenging to bring ideas to life through code. Ready to connect and create impactful applications!</p>
